Community response to elder abuse, neglect or self-neglect can make the difference between successfully helping someone or watching them decline. This workshop will introduce the Decision Tree, a tool to assist agencies and individuals to make the right referral to the most effective agency in the least amount of time.

At this workshop participants will learn:

- How to respond to a person who is being abused, neglected or experiencing self-neglect
- How to make an effective referral for a vulnerable adult with the least number of phone calls
- The role of the public guardianship and trustee
- How to access resources for specific types of cases

Facilitator Susan More is a Regional Mentor for the Vancouver, Richmond area and is an engaging and effective facilitator.
